

LLM Resume Activity

Section 1 – Prompt

Create a one-page professional resume using the following details:

Name: Mico F. Grande

Email: mykhogrande@gmail.com

Phone: 09123456789

Education:

Ateneo de Davao University – Bachelor of Science in Information Technology (2nd Year)

Assumption Academy of Compostela – Senior High School (ABM Strand)

Skills:

Microsoft Excel, Basic Programming (Python, Java), Communication Skills, Analytical Thinking, Problem Solving

Projects/Experience:

Simple Payroll System (Python/Java) – A program that calculates salaries and basic payroll operations

Use a clean, modern, and professional format with clear section headings.

Keep it concise and suitable for entry-level job applications.

Section 2 – LLM Outputs

LLM #1 Output (ChatGPT)

Mico F. Grande

Email: mykhogrande@gmail.com | Phone: 09123456789

Objective: Motivated IT student with ABM background seeking entry-level opportunities.

Education: Ateneo de Davao University – BSIT (2nd Year)

Assumption Academy of Compostela – ABM Strand

Skills: Excel, Python & Java, Communication, Problem Solving

Project: Payroll System – Developed a system for salary computation.

LLM #2 Output (Gemini)

MICO F. GRANDE

09123456789 | mykhogrande@gmail.com

PROFILE: Detail-oriented IT student with strong analytical and technical skills.

EDUCATION: Ateneo de Davao University – BSIT

Assumption Academy of Compostela – ABM

SKILLS: Excel, Python/Java, Analytical Thinking, Communication

PROJECT: Payroll system for automated salary processing.

Section 3 – Comparison Table

Criteria	LLM #1	LLM #2
Structure	Simple and direct	More organized with sections
Clarity	Clear and concise	Clear with added detail
Formatting	Basic	More professional
Overall Quality	Good	Better

Section 4 – Reflection

Among the two LLMs, Gemini performed better in generating a professional resume. While ChatGPT provided a clear and concise output, Gemini produced a more structured and polished version. The inclusion of a profile section and stronger wording made the resume appear more professional and aligned with real-world standards. One key difference I observed was that ChatGPT focused more on simplicity, while Gemini enhanced the content by adding more descriptive and impactful language. Gemini also organized the sections more effectively, which improved readability. In my final resume, I combined the best features of both outputs. I used Gemini's structured format and professional tone, while maintaining the clarity and conciseness from ChatGPT. I also improved the wording of my project description and ensured consistency across all sections. Through this activity, I learned that prompt engineering plays an important role in AI-generated content. Even when using the same prompt, different LLMs can produce different outputs. This shows that users must critically evaluate and refine AI-generated results instead of relying on them directly.

Section 5 – Final Resume

MICO F. GRANDE

Email: mykhogrande@gmail.com | Phone: 09123456789

PROFILE:

Motivated and detail-oriented second-year Information Technology student with a background in ABM. Strong in analytical thinking, communication, and problem-solving. Seeking an entry-level opportunity to apply technical and business knowledge.

EDUCATION:

Ateneo de Davao University – Bachelor of Science in Information Technology (2nd Year)
Assumption Academy of Compostela – Senior High School (ABM Strand)
